Profile

I am passionate about architecture and design. Every project I've been involved in was very personal to me, that is why I've tried to leave a mark on them. I am always trying to expand my professional horizons and elevate my architectural and design skills.

Experience

ARCHITECT

Mochly-Eldar Architects 2017 - Present

The firm specializes in public and industrial buildings.

I have worked on a variety of projects:

- Laboratory building for Weizmann Institute
- Laboratory building for Teva Pharmaceutical Industries
- Planning seismic reinforcement for Intel building
- Interior designs for Intel's working spaces
- Industrial manufacturer facility of optic lights for Fibernet
- Office building at advanced technologies center (Matam)
